

## TCM Forklift Part

TCM Forklift Part - Forklift trucks are an important player in the material handling field of every international industry. Transporting industrial goods takes place each and every day on our industrious world. Initially innovated as industrial vehicles during the 1930s in the United States of America, lift trucks gained recognition following WWII in the 1940s. Becoming a reliable and efficient means to material handling solutions, the need and practicality of these machinery spread globally.

Initially established as Toyo Carrier Manufacturing Company Limited, in the year 1949, the business was later renamed Toyo Umpanki Co. prior to becoming known as the TCM Corporation. Established by Mr. N. Niwa manufactured Japan's first forklift. Throughout the years, TCM lift trucks have become an international leader in forklift manufacturing and have built a solid reputation with the industry. TCM started constructing lift truck manufacturing sites outside of Japan during the 1980s and is presently engaged in lift truck manufacturer at three foreign factories in the United States, Europe and China.

With over 50 years of accumulated expertise and technology, TCM has been proudly making numerous models of industrial forklifts, making their models recognizable all around the world. With an energetic and strong workers, TCM has been able to constantly work towards becoming a future leading material handling company.
