

Concrete Hoppers

Concrete Hoppers - The self-dumping hopper attachment could automatically trigger to both dump and release whenever the bumper release contacts the side of a dumpster. As soon as unloading is finished, the hopper is able to return to original locked and upright position. This particular piece of machinery even comes with a cable that enables operation from the seat of the forklift in order to have the alternative of manually dumping the hopper. There is a locking chain provided so as to lock the hopper to the tine truck. This product is constructed with reliable and consistent robotic welds for utmost strength. The forklift dumping hopper also has a blue powder coat finish to maintain durability.
